

Highly Qualified Traceable Source Porcine Collagen Tissue

“PROCESSED AT A USDA INSPECTED PORCINE ONLY ABATTOIR”

USDA inspection of each animal.

All tissue and cells are collected per clients SOP and specifications.

PORCINE SOURCE MATERIAL

Sourced from an isolated High Health Status Herd™

Midwest Research Swine (MRS) exceeds standards set by the National SPF Swine Accrediting Agency. MRS herd is clinically free and serologically negative to numerous porcine pathogens. Animals are USDA validated brucellosis free and qualified pseudorabies negative.

MRS offers a complete, controlled, integrated program that provides medical device manufacturers and pharmaceutical companies with high quality porcine tissue and cells.

MIDWEST RESEARCH SWINE OFFERS

- Animals meet or exceed the standards set by FDA and BSI (British Standard Institution) for animal tissue source for medical devices.
- Animals are raised in GMP like agricultural practices.
- Various levels of traceability for porcine tissue and cells.
- Animals validated free of BSE (Bovine Spongiform Encephalopathies)
